

## HISTORY

---

### **Leading Wire and Cable Markets With Innovation and Global Strength**

Although Draka Cableteq USA was established in its present form in 1988, the pioneering innovations and milestones of Draka companies date back to the beginning of the twentieth century.

From the first "Magneto" cable for automobiles in 1906 to power cables for a 150,000-volt electron beam welding machine to today's Lifeline™ 2-hour fire rated cables that protect critical circuits, our innovative wire and cable solutions have made a difference throughout a wide range of markets, including: commercial, industrial, defense, utility, fire protection, transportation, and marine, oil and gas.

### **Offering Comprehensive Expertise Through Strategic Acquisitions**

Draka has grown significantly in recent years through organic expansion and strategic acquisitions that enjoy a remarkable synergy. Each acquisition both shares and draws upon the expertise of the others to provide superior products and capabilities.

**BIW Cable Systems** - Since 1905, BIW offered a diverse product selection to the marine, oil and gas, defense, rail, transit and industrial markets.

**Tamaqua Cable Products** - Manufacturer of power, control and instrumentation cables for standard and specialty applications.
